KEY FEATURES

- 4 bedrooms: 3 queen-size beds, 2 triple bunk beds
- 2 full-size bathrooms and 1 outdoor shower
- Private heated pool
- Modern and cozy living room with electric fireplace
- Open concept and spacious kitchen
- Free high-speed internet and smart TV in each bedroom
- Fun-filled games

This spacious property was not only newly-bought but also newly updated. It was just built a few years ago and has been professionally managed as a rental since then. The open living space is perfect for the whole family or a large group. With 4 bedrooms, you can all have your privacy and a peaceful escape.

NEIGHBORHOOD

This single-floor home is in a residential neighborhood. The neighborhood and backyard are perfect for grilling out, enjoying a fire, and laughing with your friends and family. Please respect our friends and neighbors and avoid loud, large parties. Please treat the neighbors like you live there.

LIVING ROOM & KITCHEN

After a long day of sun-soaked adventure, settle down on one of the comfy couches and turn on the smart 65" TV to find a movie for the whole family.

The fully-equipped kitchen comes prepared with stainless steel appliances and all the basics and the amenities you could think of, including a Keurig coffee maker and 12-cup drip coffee maker, and everything you may need to cook a full meal.

POOL

You will have access to your own 20-foot heated pool. The pool is 3' deep on one end and 4'11" at the deep end. We have the temp set to 78 degrees, and the kids enjoyed the pool temperature.

Please note that the pool heater (heat pump) will NOT work when the ambient temperature dips below 57 degrees. The heat pump takes the heat from the ambient air to heat the pool water. When it drops below about 57 degrees outside, there is not enough heat to activate the heat pump.
